I could shorten my call with Ayn and talk with you at 10:00 or 10:30 AM, if you are available then.

Kelly - if 10 or 10:30 don't work, let me know if Cindy has any other brief openings this morning.

You read my mind. I was going to ask Kelly to figure out a time we can talk today. Things have been crazy here too due to a number of (unrelated) issues. On the HF front, we have been briefing Sussman and getting ready for the briefing with the Administrator today. Holly and I were at work til 9:00 last night. Any chance we can talk before 2 at least briefly? Then I am open at 4...at least right now.

Cindy,

Well, it's been a full week already and it's only Wednesday morning. Barely got out of my hotel room yesterday with all the calls I was on. There are several issues that I need to brief you on:

- 1) Pavillion draft research brief
- 2) HF study (both retro- and pro-spective case studies)
- 3) R8 EcoAmbassador project
- 4) GWERD SRB branch chief position

My morning is already booked with calls. And I need to poke my head in at the beginning of the course today to show that I am still here. Am assisting with field demos this afternoon, but can break away and talk (after 2 PM) if you are available. Let me know what works for you.
